Address: _____ City: _____ State: _____ Zip: _____
E-mail address: _____ Fax # _____ Cell Phone: _____
Age: _____ Birth Date: _____ Race: _____ Marital: M S W D
Occupation: _____ Employer: _____
Employer's Address: _____ Office Phone: _____
Spouse: _____ Occupation: _____ Employer: _____
How many children? _____ Names and Ages of Children: _____

Name of Nearest Relative: _____ Address: _____ Phone: _____

How were you referred to our office? _____

Family Medical Doctor: _____

When doctors work together it benefits you. May we have your permission to update your medical doctor regarding your care at this office? _____

Please check any and all insurance coverage that may be applicable in this case:

Major Medical Worker's Compensation Medicaid Medicare Auto Accident
 Medical Savings Account & Flex Plans Other

Name of Primary Insurance Company: _____

Name of Secondary Insurance Company (if any): _____

AUTHORIZATION AND RELEASE: I authorize payment of insurance benefits directly to the chiropractor or chiropractic office. I authorize the doctor to release all information necessary to communicate with personal physicians and other healthcare providers and payers and to secure the payment of benefits. I understand that I am responsible for all costs of chiropractic care, regardless of insurance coverage. I also understand that if I suspend or terminate my schedule of care as determined by my treating doctor, any fees for professional services will be immediately due and payable.

The patient understands and agrees to allow this chiropractic office to use their Patient Health Information for the purpose of treatment, payment, healthcare operations, and coordination of care. We want you to know how your Patient Health Information is going to be used in this office and your rights concerning those records. If you would like to have a more detailed account of our policies and procedures concerning the privacy of your Patient Health Information we encourage you to read the HIPAA NOTICE that is available to you at the front desk before signing this consent. The following person(s) have my permission to receive my personal health information:

Patient's Signature: _____ Date: _____

Guardian's Signature Authorizing Care: _____ Date: _____

PATIENT NAME _____ DATE _____

HISTORY OF PRESENT AND PAST ILLNESS:

Chief Complaint: Purpose of this appointment: _____

Date symptoms appeared or accident happened: _____

Is this due to: Auto ___ Work ___ Other _____

Have you ever had the same or a similar condition? Yes No If yes, when and describe: _____

Days lost from work: _____ Date of last physical examination: _____

Do you have a history of stroke or hypertension? _____

Have you had any major illnesses, injuries, falls, auto accidents or surgeries? Women, please include information about childbirth (include dates): _____

Have you been treated for any health condition by a physician in the last year? Yes No

If yes, describe: _____

What medications or drugs are you taking? _____

Do you have any allergies to any medications? Yes No

If yes, describe: _____

Do you have any allergies of any kind? Yes No

If yes, describe: _____

Do you have any Congenital Condition? ___ Yes ___ No If YES, Describe _____

Women: Are you pregnant? _____

Have you had or do you now have any of the following symptoms/conditions? Please indicate with the letter **N** if you have these conditions **now** or **P** if you have had these conditions **previously**.

Patient Health Information Consent Form

We want you to know how your Patient Health Information (**PHI**) is going to be used in this office and your rights concerning those records. Before we will begin any health care operations we must require you to read and sign this consent form stating that you understand and agree with how your records will be used. If you would like to have a more detailed account of our policies and procedures concerning the privacy of your Patient Health Information we encourage you to read the HIPAA NOTICE that is available to you at the front desk before signing this consent.

1. The patient understands and agrees to allow this chiropractic office to use their Patient Health Information (**PHI**) for the purpose of treatment, payment, healthcare operations, and coordination of care. As an example, the patient agrees to allow this chiropractic office to submit requested PHI to the Health Insurance Company (or companies) provided to us by the patient for the purpose of payment. Be assured that this office will limit the release of all PHI to the minimum needed for what the insurance companies require for payment.
2. The patient has the right to examine and obtain a copy of his or her own health records at any time and request corrections. The patient may request to know what disclosures have been made and submit in writing any further restrictions on the use of their PHI. Our office is obligated to agree to those restrictions only to the extent they coincide with state and federal law.
3. A patient's written consent need only be obtained one time for all subsequent care given the patient in this office.
4. The patient may provide a written request to revoke consent at any time during care. This would not effect the use of those records for the care given prior to the written request to revoke consent but would apply to any care given after the request has been presented.
5. Our office may contact you periodically regarding appointments, treatments, products, services, or charitable work performed by our office. You may choose to opt-out of any marketing or fundraising communications at any time.
6. For your security and right to privacy, all staff has been trained in the area of patient record privacy and a privacy official has been designated to enforce those procedures in our office. We have taken all precautions that are known by this office to assure that your records are not readily available to those who do not need them.
7. Patients have the right to file a formal complaint with our privacy official and the Secretary of HHS about any possible violations of these policies and procedures without retaliation by this office.
8. Our office reserves the right to make changes to this notice and to make the new notice provisions effective for all protected health information that it maintains. You will be provided with a new notice at your next visit following any change.
9. This notice is effective on the date stated below.
10. If the patient refuses to sign this consent for the purpose of treatment, payment and health care operations, the chiropractic physician has the right to refuse to give care.

I have read and understand how my Patient Health Information will be used and I agree to these policies and procedures.

INFORMED CONSENT

PATIENT NAME _____

Clinic Name The Dalles Chiropractic

Doctor's Name Dr. Gregory Keilman

Address 113 E. 2nd St. Suite A The Dalles, OR 97058

Phone 541-296-8991 Fax 541-296-8995

The primary treatment used by doctors of chiropractic is the spinal manipulation, sometimes called spinal adjustment.

◆ **The nature of the chiropractic adjustment.**

I will use my hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible "pop" or "click," much as you have experienced when you "crack" your knuckles. You may feel or sense movement.

◆ **The material risks inherent in chiropractic adjustment.**

As with any healthcare procedure, there are certain complications, which may arise during chiropractic manipulation. Those complications include: fractures, disc injuries, dislocations, muscle strain, Horner's syndrome, diaphragmatic paralysis, cervical myelopathy and costovertebral strains and separations. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment.

◆ **The probability of those risks occurring.**

Fractures are rare occurrences and generally result from some underlying weakness of the bone, which we check for during the taking of your history and during examination and X-ray. Stroke has been the subject of tremendous disagreement within and without the profession with one prominent authority saying that there is at most a one-in-a-million chance of such an outcome. Since even that risk should be avoided if possible, we employ tests in our examination which are designed to identify if you may be susceptible to that kind of injury. The other complications are also generally described as "rare."

◆ **Ancillary treatment.**

In addition to chiropractic adjustments, I intend to use the following treatments:

Traction, Mechanical

These treatments involve the following additional significant risks:

◆ **The availability and nature of other treatment options.**

Other treatment options for your condition include:

- ◆ Self-administered, over-the-counter analgesics and rest
- ◆ Medical care with prescription drugs such as anti-inflammatories, muscle relaxants and painkillers.
- ◆ Hospitalization with traction
- ◆ Surgery

♦ **The material risks inherent in such options and the probability of such risks occurring include:**

- ♦ Overuse of over-the-counter medications produces undesirable side effects. If complete rest is impractical, premature return to work and household chores may aggravate the condition and extend the recovery time. The probability of such complications arising is dependent upon the patient's general health, severity of the patient's discomfort, his pain tolerance and self-discipline in not abusing the medicine. Professional literature describes highly undesirable effects from long term use of over-the-counter medicines.
- ♦ Prescription muscle relaxants and painkillers can produce undesirable side effects and patient dependence. The risk of such complications arising is dependent upon the patient's general health, severity of the patient's discomfort, his pain tolerance, self-discipline in not abusing the medicine and proper professional supervision. Such medications generally entail very significant risks - some with rather high probabilities.
- ♦ Hospitalization in conjunction with other care bears the additional risk of exposure to communicable disease, iatrogenic (doctor induced) mishap and expense. The probability of iatrogenic mishap is remote, expense is certain, exposure to communicable disease is likely with adverse result from such exposure dependent upon unknown variables.
- ♦ The risks inherent in surgery include adverse reaction to anesthesia, iatrogenic (doctor induced) mishap, all those of hospitalization and an extended convalescent period. The probability of those risks occurring varies according to many factors.

♦ **The risks and dangers attendant to remaining untreated.**

Remaining untreated allows the formation of adhesions and reduces mobility which sets up a pain reaction further reducing mobility. Over time, this process may complicate treatment making it more difficult to treat and less effective the longer it is postponed. The probability that non-treatment will complicate a later rehabilitation is very high.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE.

I have read or have had read to me the above explanation of the chiropractic adjustment and related treatment. I have discussed it with Dr. Gregory Keilman and have had my questions answered to my satisfaction. By signing below, I state that I have weighed the risks involved in undergoing treatment and have myself decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.
