

To Whom It May Concern,

As legal guardians/parents of \_\_\_\_\_, we hereby withdraw our consent to immunize our child because it violates our sincere and conscientious religious beliefs (PA Bulletin Volume 27 #34 August 23, 1997 Health and Safety Department of Health Chapter 23.84). We believe vaccines create an imposition upon the body's domain by injecting toxins and animal substances which interfere with the natural healing processes intended by divine force.

We are willing to accept full responsibility for our child's welfare and therefore release the school from the same. Kindly enter this religious exemption into our child's school records.

Thank you for your time with this matter.

Sincere Regards,
